Education

09/2022 – Present 📑 **Ho Chi Minh City University of Industry and Trade (HUIT)**
• Major: *Software Engineering*.
• Relevant Courses: Web Programming (C#), .Net Technologies (C#), Database Management Systems (SQL Server), Mobile Programming (Flutter),...
• GPA: 3.19/4 (Currently: Semester 2, Year 3)

Project Experiences

📑 **Email Spam Detection Application (SpamFilterApp)**
• Developed a machine learning-based application using Naive Bayes algorithm to detect spam emails with high accuracy.
• Created an intuitive UI allowing users to check spam probability and filter emails in real-time.
• Implemented with C# .NET, incorporating data processing pipeline for effective email classification.

📑 **Examination Management System (ThiTracNghiem)**
• A comprehensive .NET Framework application built for creating, managing, and conducting multiple-choice exams with role-based access for administrators, teachers, and students.
• Features include exam creation and approval workflows, automated test scoring, real-time performance monitoring, detailed reporting with PDF export, and secure user authentication.
• Developed using C# with a three-tier architecture (UI/BLL/DAL), SQL Server database, and modern UI frameworks including DevExpress, Guna UI2, and WinForms.

📑 **Watch E-commerce Website (BanDongHo)**
• Developed a comprehensive e-commerce platform for luxury watches using ASP.NET MVC 5, Entity Framework, and SQL Server, featuring user authentication, product catalog management, shopping cart functionality, and secure online payment processing.
• Implemented a responsive frontend interface with Bootstrap and jQuery, ensuring optimal user experience across different devices, while creating an admin dashboard with complete control over products, categories, brands, promotions, and order management.

Skills

Languages	📑	Vietnamese (Native), English.
Coding	📑	C#, JavaScript, C, Dart, HTML, CSS, . . .
Databases	📑	SQL Server.
App Dev	📑	ReactJS, ASP.NET MVC, Winform C#.
Misc.	📑	Time management, independent working, analytical thinking, problem-solving, adaptability.
